RAHUL TALELE

Gastroesophageal reflux disease (GERD)

GERD occurs when the acid of the stomach frequently back-flows into the throat and mouth through the oesophagus.

If you experience the following symptoms you might be suffering from GERD

Contact your doctor immediately in case of

Burning sensation in the chest

Excessive burping

Frequent hiccups

Chest pain and breathing difficulties

Excessive or forceful vomiting

Sour/bitter taste in the mouth

Bad breath and highly prone to tooth decay

Dry cough

Sensation of a lump in the throat
